

Cannonball Kids' cancer Foundation (CKc) is a research-centric foundation dedicated to finding treatment options for all childhood cancers. The cancer warriors pictured below are just two children that have received a CKc-funded trial. Your support allows CKc to change the future for other children by giving them **OPTIONS** for treatment, rather than hospice or lifelong health implications.

CKc RESULTS TO DATE

593

options for children*

\$2.4

million grants awarded

24

research grants funded

8

childhood cancer sub-types funded

- Trials accessible in **25 states** plus **D.C., Canada, Scotland, and Switzerland**
- **92%** of trials are **first-of-their-kind**

Research grants include:

- **12** clinical trials
- **5** program grants
