

OUR MISSION

Kids Beating Cancer provides access to life-saving treatments through the science of cellular therapy and advancing pediatric innovative, novel, research, moving new discoveries to patient care, while supporting the children and their families throughout the journey to a cure.

Science is the cure to saving children's lives.

- **10,000 Children Served**
- **38,000 Potential Donors Tested**
- **\$27 Million Raised**
- **160 children received transplants**
- **\$1.5 million funding for lab cost not covered by insurance for any child in need of a transplant to identify a donor**
- **\$300,000 funded meal vouchers for families while their child was treated in the Kids Beating Cancer Pediatric Transplant Center**

Opening of the Kids Beating Cancer Pediatric Transplant Center in 2012

THE ONLY NON-PROFIT OF ITS KIND IN AMERICA

OUR GOALS

Science is the Cure

- Support medical and research teams to guarantee all treatments bring the latest science to the bedside
- Establish Research and collaborative studies and trials
- Sponsor an international "Science is the Cure" Medical Symposium to stimulate scientific inquiry

Facility

- Expand the size of the Kids Beating Cancer Pediatric Transplant Center to meet the growing need
- Addition of the Kids Beating Cancer Infusion Center to provide infusion therapy before and after transplants
- Expand the size of the Kids Beating Cancer Cellular Therapy Lab to advance medical technology needed for transplants

Patients & Family Support

- Fund pre-transplant testing, "Fund the Match" program
- Fund infusion therapy and medical technology needed for transplants, "Fund the Cure" program
- Fund decorating patient hospital rooms, "My Room" program
- Fund meal vouchers and provide food for families during treatment, "Food for Families" program
- Provide support to patients Post-Transplant
